-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 26, 28, 29, 32-35 and 37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 26, lines 16-18, the phrase "is provided through said first position" in the recitation that "wherein a switching from said second position to said third position or said switching from said third position to said second position **is provided through said first position**" (emphasis added) is not clearly understood rendering the claim scope unclear.

Claim 28, line 2, "...cleaning device is comprises..." should be corrected.

Claim 28, line 8, the recitation of "an electrical power supply located..." constitutes a double inclusion of elements with "a power supply..." recited back in claim 26, line 6. If this is not the case, there should be clear structural connection between both these elements.

Claim 29, line 2, is "a telescopic portion" referring to "a telescopic portion" (back in claim 26, line 3)? Again, there should be clear structural connection to avoid any double inclusion of elements.

Claim 29, line 3, the recitation of "a handle means", "an aperture", etc. all constitute a double inclusion of elements with that recited back in claim 26, lines 9-10. If this is not the case, there should be clear structural connection between both these elements.

Claim 32, line 2, the recitation of "a power supply compartment" constitutes a double inclusion of elements with that recited back in claim 28, line 8. If this is not the case, there should be clear structural connection between both these elements.

Claim 35 also appear to recite multiple double inclusion of elements such as "a handle..." (line 4), "a mechanical switching means" (line 11), etc.

Claim 37, line 2, is "a telescopic portion" referring to "a telescopic portion" (back in claim 26, line 3)? Again, there should be clear structural connection to avoid any double inclusion of elements. The same objection holds for "a handle means" (line 3) as well as "an aperture" (line 4) with that already recited back in claim 26, lines 9-10.

Claim 37, line 4, correct "lest".

### ***Conclusion***

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Randall Chin whose telephone number is (571) 272-1270. The examiner can normally be reached on Monday through Thursday and every other Friday.
